Please briefly present the organisation/group (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff, learners and members of the group)- 4000 characters

Mine Vaganti NGO (MVNGO) is a non-profit organization based in Sardinia, established in 2009. MVNGO offers various services, including Education and Training, Project Design and Development, Thematic Research, International Mobility, and Consultancy, primarily in the fields of Youth, Adults, Education, and Sport. They have offices in Sassari, Olbia, and Tempio Pausania, serving the North of Sardinia and extending their reach across Italy, Europe, and beyond.

MVNGO's work is characterized by teamwork, involving dedicated teams that create, develop, and implement international projects through research, innovation, and knowledge exchange. They have accredited trainers and facilitators with extensive experience in project implementation. MVNGO comprises 10 full-time staff members, 15 temporary co-workers from various mobility programs, and 70 external contractors working on an annual or project basis.

**MISSION**

The organization's mission centers around promoting intercultural dialogue, social entrepreneurship, and social inclusion through Sport, Formal and Non-Formal Education, focusing on disadvantaged groups such as migrants and people with disabilities.

**SERVICES**

MVNGO offers a range of services, including Project Design, Management, and Implementation, Thematic and Desk Research, Stakeholder Engagement, Impact Amplification, Dissemination, Communication, Exploitation, International Mobility, Training, and Consultancy. These services are provided at the local, regional, and European levels for both public and private entities. MVNGO actively participates in European and transcontinental projects across the aforementioned sectors.

Since 2021, MVNGO co-organizes the annual [International Conference on Sports and Education- ICSE](#), in partnership with Higher Education Institutions (La Sapienza University of Rome, izmir katip çelebi üniversitesi), sport clubs and NGOs. ICSE is intended as a platform to foster and promote research on the use of sports as an educational tool, as well as an instrument to foster socio-economic regional development.

**PROGRAMMES**

MVNGO engages with various programs, including Erasmus+, Horizon Europe, Europe for Citizens, Creative Europe, EuropeAid, Life, the United Nations (UNDEF)

CERV Act Stronger, and collaborates with foundations like EYF, Fondazione con il Sud, Anna Lindh, and Open Society.

### **AFFILIATION**

The organization is affiliated with international networks such as YEE, ISCA, and MV International (MVI), which is a network of European NGOs and associate organizations from Africa, Latin America, and Asia, promoting participatory planning between NGOs. MVNGO also partners with local foundations that align with their program scope and priorities. They are currently involved in over 100 KA2 Strategic Partnership projects and Collaborative Partnership projects in various sectors.

MVNGO is structured into **6 WORK DEPARTMENTS**:

#### **1) MVNGO PROJECT & Research hub**

MVNGO PROJECT & Research hub: Focuses on project design and execution, specializing in cooperation within Erasmus+ and other European/international programs. It also conducts academic and citizen research.

#### **2) MVNGO ADULT & Training department**

MVNGO ADULT & Training department: Specializes in training and project design for adult audiences, including the use of coaching for professional development. It coordinates activities at both local and international levels.

#### **3) MVNGO VET & HEI mobility**

Manages international mobility for high school and university students, offering internship opportunities and coordinating the "National Higher Education Consortium."

#### **4) MVNGO Youth Division**

MVNGO YOUTH division: Organizes Erasmus+ KA1 and KA2 Youth and EYF projects, Youth Exchanges, and Training Courses using Non-Formal Education Methodology. It also shares expertise with external NGOs in Italy and Europe.

#### **5) MVNGO EDTECH Branch**

Focuses on technology in education, implementing digital solutions like e-learning courses, educational games, and digital storytelling to enhance learning outcomes. MVNGO also conducts research on AI and deep learning algorithms

and collaborates with tech companies and universities. In 2023, MVNGO received a grant for their "VIRTUAL AUDITORIUM" project, exploring the application of emerging technologies, such as Artificial Intelligence, in education and training.

**6) MVNGO SPORT branch**

Founded in 2012, the MVNGO Sport Branch works on projects dealing with Sport and Non Formal Education. Composed by 12 active members, among whom are 4 international sport professionals / athletes, the aim of MVNGO Sport Branch is to foster and improve the use of NFE and Sport combined, as a tool for education; social inclusion; mutual understanding; entrepreneurial development and leadership.

ETS methodology is also used as instrument of youth/adults/NEET/Migrants inclusion is one of MVNGO's key areas of expertise.

MVNGO Sport Branch's professionals would like to further develop knowledge and competences in youth/adult/sport workers around the world, on the following areas:

- Principles of NFE Sports tools
- New teaching methods and tools on education through sport
- Sport Management competences

Mine Vaganti NGO has displayed a long-standing focus on the use of Sport as a tool of social inclusion, with a specific focus on disadvantaged categories, among whom migrants.

The Sport Branch of Mine Vaganti NGO coordinated the Erasmus Plus Capacity Building Youth "Inclusion Through Sport", coordinated by MVNGO between 2015 and 2016. The project focused on promoting the use of Sport as a tool of social inclusion, with a specific focus on disadvantaged categories of the youth. The partnership of ITS included 12 organisations from 12 countries in 4 continents of the World (Europe, Asia, Latin America and Africa).

Mine Vaganti NGO stands out for its great value in organising academic conferences, particularly focused on the dissemination of information on topics such, education, migrants' inclusion, sustainable tourism and finally Sport, as a method of NFE and as an instrument of social inclusion.

In 2018, MVNGO's Sport Branch achieved an outstanding result and additional seal of the level of quality reached in the educational use of Sport with the approval of the BIG Collaborative Partnership "Curricular Pathways for Migrants' Empowerment in Sport" (CPMES). The project, coordinated by MVNGO, aims at promoting social inclusion of migrant categories through developing profiles of Sport Managers in migrants.

What are the activities and experience of the organisation in the areas relevant for this project? What are the skills and/or expertise of key persons involved in this project? What are the skills and/or expertise of key persons involved in this project? - 4000 characters

In 2020, 5 approved Erasmus+ Sport Collaborative Partnerships Project have our organisation as valuable partner.

MVNGO Sport Branch has successfully implemented the following projects since 2012:

- 2012: Youth in Action Youth Exchange “ExSport ME Import Us”: Sport values, health.
- 2012: European Youth Foundation “Inclusive Sport in Sardinia: Sport as a tool for inclusion, Pilot Activity.
- 2013: Youth in Action Programme: TC “Inclusive Sport for All”, Sport as an educational tool.
- 2013: Youth in Action Programme, “Two Islands One Move” Youth Exchange related to The European Move Week 2013, Exchange of good practices between islands.
- 2013: Grundtvig Programme In Training Service “Education and Sport for All”, Sport as an educational tool.
- 2014: Large Scale Project “Fill My Value Backpack” (FMVB), supported and co-financed by MVNGO Sport Branch, which took part in a work-visit to Kenya. FMVB is organized by a non-formal group of young people, who are willing to implement ‘NFE through Sport’ classes to children from deprived areas.
- 2014: Move Week Sassari 2014 a Sport event which involved more than 1000 people in the Parco di Bunnari. The event was part of the European Campaign Now We Move, promoted by ISCA.
- 2014: Erasmus+ Programme Youth in Action TC “Education for All” in Marrakech, Sport as an educational tool.
- 2015: Coordinator Erasmus Plus Capacity Building Youth, “Inclusion Through Sport” (ITS): Sport & Non Formal Education in 4 Continents and 12 countries with sharing of best practice and production of Format TC and Handbook. The project aimed at exploring the role of Sport as an educational vehicle to promote youth social inclusion, community values and respect of diversity. ITS is a success-case in Sport education providing MVNGO (designer, applicant and coordinator of the proposal) with managerial, logistical and methodological experience. The Format TC developed in the project was translated into specific publication: “Format TC on ITS Methodology”, co-authored by all Consortium partners under the coordination of MVNGO. The publication was released on international media channels at project Final Conference in Kenya, scheduled for July 2017.
- 2016: Partner in the Collaborative Partnership, “European Everyday of Sport”. The project aimed at exploring good practices related to promoting the social and healthy development value of Sport and physical activity, with a particular focus on previous editions of the European Week of Sport, as a means to produce and promote tools for different professional groups targeted at motivating more people to do Sports in everyday life. The project created a set of Web-based resources (Educational Platform and Android/iPhone application) targeted at improving good governance in the Sport field as well as an innovative network of professionals.

- 2016: Coordinator of the Erasmus Plus Collaborative Partnership, “Young Ambassador for Sport and Volunteering” aimed at disseminating the Education Through Sport methodology in Europe, which MVNGO coordinated after the renounce of the original Danish coordinating Sport Club. The project, lasted a total 24 months and aimed at promoting volunteering in Sport, equal opportunities and awareness of the importance of healthy lifestyle through increased participation in sport for all. The main work phases, dedicated to local actions, were related to the promotion of sport culture and raising awareness about the importance of being physically active, and the promotion of volunteering, its values and its benefits for society. In addition, as final output the project, it was created an online platform which will gather all tangible results, best practices shared and indications for fellow organisations and stakeholders.
- 2017: Partner in the Collaborative Partnership “Project for Academy Sport SupPORT” (PASSPORT). The project aimed at promoting and supporting dual careers for athletes by setting up a transnational network of partners that developed a Platform for training the athletes in Sport Management, hence contributing to their employability. The project foresaw the implementation of a set of local workshops for Sport athletes in all partner countries.
- 2017: Partner in the Collaborative Partnership “Good Governance in Sport”. The Collaborative partnership was coordinated by the Bulgarian organisation “Bulgarian Sports Development Association” (BSDA) and deployed a set of activities at the local, national and international levels with a focus on the development, identification, analysis, promotion and sharing of good practices in good governance as well as on giving recommendations to some of the observed practices that can be improved. The project involved the production of a Self-learning path on good governance in Sport for the self-development of Sport leaders and managers, which will give the possibility of assessing the level of accountability and transparency of the webpage of a sport organisation. Among the results of the project there is also an Accountability and Transparency Handbook for sport organisations including tips and tricks on the optimization of the web page of a Sport organisation.
- 2017. Partner in the Capacity Building Youth “A Path to TranSportAction” (APTS). The project was coordinated by the Croatian organisation “Rijeka Sport’s Association” and aimed at enhancing the capacity of youth organisations and stakeholders in all partner countries and beyond to use Sport, in combination with high-end NFE methodologies for fostering a gender-inclusive approach to Sport practices, contrasting sexism and gender stereotypes and promoting equality and mutual respect among genders in disadvantaged rural areas in Europe and Latin America. The project involved the production and testing of a Format TC providing youth operators with knowledge,, skills and NFE tools to involve youngsters (males and females) in Sport education activities fostering female participation in Sport, rejection of gender stereotypes and respect of gender differences and sensibilities. The Format TC methods was tested in an international Youth Exchange involving

youngsters from each country. A phase of local activities was implemented with youngsters (males and females) from each partner country).

- 2017: Partner in the Capacity Building Youth “Women Empowerment through Sport” (WETS). The project was a 24 month Capacity Building in the field of Youth project coordinated by the Bulgarian organisation “Champions Factory. The project involved an international Consortium of 6 organisations from Europe (Bulgaria and Italy), Africa (Kenya and Tanzania) and Asia (Nepal and Cambodia). The project aimed at developing, testing and spreading new educational methodologies for women empowerment through Sport with the aim to enhance the capacity of the partner organisations and beyond. Project activities comprised the implementation of a cross-border awareness-raising Campaign on women empowerment through Sport, a Training Course for youth workers, a youth exchange involving youngsters from each partner country and a closing International Conference.
- 2018: Partner in the frame of the Strategic Partnership Youth project “ETS for Youth Equality” focused on the use of ETS (Education Through Sport” as a tool of social inclusion of youngsters with disability.
- 2018: Coordinator of the Collaborative Partnership “Curricular Pathways for Migrants’ Empowerment through Sport” (CPMES). The project aims at developing curricula of Sport Managers in migrants through the use of Education Through Sport.
- 2019: Partner in the frame of Collaborative Partnership “Promotion of Physical Activity of the Youth through Active Mobility to School”: the project encourages participation in sport and physical activity especially by supporting Council Recommendation on HEPA and EU Physical Activity Guidelines.
- 2019: Partner in the frame of the Collaborative Partnership “Dual-Track Careers for Para-Athletes”: the project promotes education in and through sport with special focus on skills development, as well support the implementation of the EU Guidelines on Dual Careers of Athletes.
- 2019: Partner in the frame of the Collaborative Partnership “Developing Sport Administration Competences”: the project aim is to enable each administrator to effectively improve and develop administrative functions in their organizations, which would result in better governance of a sport organization.
- 2019: Partner in the frame of the Collaborative Partnership “DU MOTION”: the project aim is to educate volunteers in the service of organization of national and international sporting events.
- 2019: Partner in the frame of the Collaborative Partnership “Enhancing Health and Physical Activity Rates through Pentathlon”: the project encourages participation in sport and physical activity especially by supporting Council Recommendation on HEPA and EU Physical Activity Guidelines.
- 2019: Partner in the frame of the Collaborative Partnership “Professional and Personal Experience through Lifelong Learning and Regular Sport / PROPELLERS”: the project encourage social inclusion and equal opportunities in sport.
- 2019: MVNGO Sport Branch supporting NGO Nest Berlin and MV International in the frame of the Collaborative Partnership “Re(IN)novating Marketing Strategy

*Across Semi-professional Female Teams”: the project aims at strengthening managers of semi-professional female sport teams through an up-skill process related to marketing, communication and visibility strategies.*

- *2019: Coordinator of Small Collaborative Partnership “Leveraging Education Through Sport for Innovative Changes Leading to Unification of Disability and Education”: the project aims to encourage social inclusion and equal opportunities of disabled persons. Particularly, the project goal is to showcase talents and challenge stereotypes about disability in different contexts and mostly outside sport organisations, such as schools, NGOs and local communities.*
- *2019: MVNGO Sport Branch supporting MV International in the frame of the Small Collaborative Partnership “Sport Education Against Radicalisation”: the project goal is to prevent radicalisation of young people encouraging social inclusion and equal opportunities in sport.*
- *2019: Partner in the frame of Small Collaborative Partnership “Countering Exclusion In and Through Sports”: the project aims at employing the potential of non-formal learning connected with Sport practice as a means to favour an inclusive approach to Sport practice in young people aged 16-25 potential sportsmen, contrasting the undercurrents of stereotyping in Sport sub-cultures (most notably against migrants, women and LGBT individuals).*
- *2019: Partner in the frame of Small Collaborative Partnership “Balanced Living through Healthy Nutrition Habits”: the project addresses the challenge of promoting a mutually reinforcing combination between Sport activity and healthy practices of living (including Youths Post-rehab Sport Activation proper nutrition and non-sedentary lifestyles) as a means of enhancing a greater physical and mental wellbeing at the level of the youth.*
- *2019: Partner in the frame of the Small Collaborative Partnership “Active Park”: the project aim is to increase the level of physical activity of children with special needs in primary schools. The project promotes popularization of grassroots sports and physical activities for children with special needs offering them equal opportunity in sport.*
- *2020: Partner in the frame of the Collaborative Partnership “Youths Post-rehab Sport Activation”: the project encourages social inclusion and equal opportunities in sport, while the parallel topics is to promote voluntary activity in sport and education in and through sport with special focus on skills development.*
- *2020: Partner in the frame of the Collaborative Partnership “SPORT & NFE - A pathway to community development”: the project aims at offering and exchanging expertise in terms of creation of empowering environment for building up competences of sport sector figures (sport coaches, trainers, PE teachers) in using non formal educational methodologies, in view of applying appropriately the Education through sport methodology based on such methods.*
- *2020: Partner in the frame of the Collaborative Partnership “Sport for Every Child: Fit Kids”: the goal of the project is to develop a high-end modular based Physical Education methodology of sport activities, sport games and exercising for children and youngsters with mental and developmental disorders, illnesses and disabilities.*

- 2020: Partner in the frame of the Collaborative Partnership “Interventions in the Elderly’s Mobility Modes for Promotion of their Physical Activity and Fitness”: the project aims at providing up-to-date, inclusive, and consistent resources for policy making and awareness raising about the health of the elderly of more than 65 years of age in the European countries with emphasis on lower-income and southern and Mediterranean countries, on which fewer studies have been conducted.
- 2020: MVNGO Sport Branch supporting ASD FC SASSARI TORRES FEMMINILE in the frame of the Collaborative Partnership “Athlete Counsellors Against Match Fixing”: the project focus on strengthening prevention and contrast of match-fixing at all levels in the Sport sector by means of creating methodologies and pilot programmes to empower willing Athletes as specialized counsellors supporting Sport federations, clubs, stakeholders and fellow Athletes in counteracting the different facets of the match-fixing challenge in their own areas of responsibility/influence.
- 2020: MVNGO Sport Branch supporting NGO Nest Berlin in the frame of the Collaborative Partnership “Multisport Community Experience”: the project aims at activating a new user experience, new sense of belonging, new emotions, new relationship and healthy competition and a compelling motivation for a physically active and healthy living. The game is based on competing communities.
- 2020: Partner in the frame of the Small Collaborative Partnership “Sport Day for Every Child”: the project encourages social inclusion and equal opportunities in sport, which is the main aim of the project, so that it is available to all children/youngsters with ADHD and to emphasize the importance of sports activities.
- 2020: MVNGO Sport Branch supporting Polisport Nuoro in the frame of the Small Collaborative Partnership “noHing lEss thAn an athlete”: the project is expected to have an impact on inclusion and equal opportunities in the sport field producing an impact on local communities raising the awareness of communities about the concepts of “sport for all”, equal opportunities and equal access to sport activities.
- 2020: MVNGO Sport Branch supporting MV International in the frame of the Small Collaborative Partnership “Learning through mobility of sports’ volunteers”: the project seeks to answer the priority European policy challenge of supporting volunteering in the field of Sport as a vehicle of employability, economic growth and social engagement.
- 2021: Partner in the frame of the Cooperation Partnership “Fostering FemAle Management leaders in Sports”. The project aims at balancing the under-representation of women and mothers in sport, thus pursuing the promotion of employability through sport and the encouragement of social inclusion and equal opportunities in sport.
- 2021: Partner in the frame of the Cooperation Partnership “For me for all”. “For me For all” aims to include children and adolescents at risk in sport using former elite athletes as tutors, providing the possibility of carrying out internships in clubs, promoting equality in opportunity and access, inclusion and equity of children and adolescents at risk in all their areas of life.

- 2021: MVNGO Sport Branch supporting NGO Nest Berlin in the frame of the Cooperation Partnership “REVITALIZE THE SCHOOLYARDS as valuable sporting resources for the community”. The purpose of the project is to study, create, test and disseminate a strategic administrative mechanism managed by municipalities and designed to stimulate local partnerships between sports organisations and schools in order to co-govern, take care and regenerate the schoolyards, as valuable commons to expand and improve the supply of recreational sport practices, in a capillary way and through replicable and sustainable financing scheme.
- 2022: Partner in CISCA project which aims at address the pressing need for social inclusion in and through Sport within European neighbourhoods while at the same time exploring new approaches and synergies operationalizing the social dimension of Sport and the European dimension of trans sectorial cooperation in Sport, with a focus on civil society organizations/activists and Sport groups/associations.
- 2022: Mine Vaganti NGO is Partner in the Fit-IN Rehab. The main objective of the project is to motivate seniors with disabilities 60 + after rehabilitation or treatment to perform sports exercises regularly, taking into account their condition (physical and mental) by creating sport exercises to maintain mobility and health. The project will focus on the building up of an appropriate training course of volunteers for non-medical students, who will help the elderly with the right performance of sports exercises and motivate them for daily exercises.
- 2022: Mine Vaganti NGO is partner in the Project “Heritage & Sport” which main objective is to increase the level of physical activity of children in primary education with mental, developmental and physical disabilities. Partners are aware that there is a need for innovative approaches to motivate and include children with disabilities in sport activities.
- 2022: The HRIC main aim is to take advantage of and enhance the therapeutic potential of sports to support the mental wellbeing of vulnerable youth groups by developing specific training methodologies and policy recommendation to foster the participation in sport activities by these vulnerable youth groups and contribute to the improvement of their mental wellbeing, especially of those particularly touched by the impacts of the COVID-19 pandemic.
- 2022: The partnership of Mine Vagnati NGO and the other associations in the #WE SPORT project aim at fighting the still present racism and discrimination of Gender Identity in the sport field. #WESPORT main objective is then to act as a driving force of social change targeted at micro-realities (local communities, sport clubs, sport organizations and associations)
- 2023: Partner in the WalkingBus which addresses the objective of ‘encouraging a healthy lifestyle for all’ with a specific focus on children, by supporting walking adoption as a means of active travel that can improve the physical activity level. For the purposes of this project a walking bus is defined as a supervised group of children walking to or from school (or other premises) along a set route and picking up or dropping off ‘passengers’ at specific points along the way.

### **Dr. Melis Nazli Turhal**

Melis Nazlı Turhal is an experienced EU Project Manager and Consultant with a strong background in international project management and consulting. She is a versatile professional with a proven track record of successfully managing and consulting on a wide range of projects within the European Union programs. With a career spanning several years, she has played instrumental roles in various organizations as an EU Project Manager and Consultant, she currently spearheads international projects under prestigious EU programs like Erasmus+, Horizon 2020 , Horizon Europe, COSME, and more. Her responsibilities include project conception, content creation, quality assessment, and impact evaluation as well as actively involving in research, dissemination, and communication activities.

Furthermore, Melis is an entrepreneur herself, as the owner of IDA Innovation, where she provides consultancy services to small and medium-sized enterprises and startups, assisting them in scaling up and expanding internationally in a sustainable manner. Moreover, she leads the creation of impactful eLearning platforms and "play to learn" applications that engage, educate, and inspire individuals while promoting sustainability through AI, gamification, and data analytics.

In addition to her role as an EU Project Manager & Consultant at Mine Vaganti NGO, she holds positions at other prominent organizations. At MV International, she is part of a network of European NGOs focused on knowledge exchange in European design. In Berlin, Germany, she serves as a Project Manager and Consultant at NGO Nest Berlin, facilitating international projects aimed at social change. Moreover, in Sassari, Italy, she contributes to the promotion of sailing education as a tool of education at ASD Sport Compass.

### **Dr. Giancarlo Masi**

Giancarlo is project manager & designer at Mine Vaganti NGO. With extensive experience in cooperating with local non-profit associations, he covers management positions in more than 30 funded projects. His expertise is focused on increasing opportunities interventions for people with fewer opportunities, social inclusion, social development. He has a deep knowledge of Non-Formal Education [NFE] and Education through Sport [ETS] as a tool to foster personal growth. He was awarded a M.Sc. in International Relationships

from the “LUISS Guido Carli” University of Rome. He continued his diplomatic studies after university, cultivating international experience in various academic and professional contexts.

### **Dr. Livia Magdoskova**

Working as a European project designer & project manager, and coordinator of the team on research and implementation of the Erasmus+ projects. She is an accredited professional for WELL Healthy Building Standard, committed to advancing human health in built environments and communities. Dr Magdoskova holds a Bachelor’s Degree in European Development Programmes, a Master’s Degree in Economic Diplomacy and International Relations, and Executive Master's in Sustainable Management: Environment, Social, and Governance. She was active in green and youth politics, worked on research on the green economy and climate change, and was a member of the Editorial Board and contributor to the international E-journal. She has working experience also in hospitality management and the real estate sector. She speaks fluent Slovak, Italian and English, has a good knowledge of Czech, and a basic knowledge of German.

### **Dr. Samanta Sedda:**

European Project Designer and Trainer.

In charge of design of project proposals in disparate European projects and actions: Erasmus+ KA1, KA2, Europe for Citizens, European Youth Foundation (EYF). She is well experienced in design and co-design of educational materials (Training Formats, Toolkits, Handbooks, e-Learning modules, etc.) and delivering formal and non formal courses in the context of training targeted at a varied audience of recipients (young people, adults, VET learners), also with fewer opportunities (e.g., migrants, NEETs, persons with SEN and SLD) in the frame of Erasmus+ (Youth, Adult, Schools and VET) and European Youth Foundation (Pilot and International Activities). Dr. Sedda graduated at the University of Sassari in Linguistic and Cultural Mediation. She speaks fluent English, Spanish and French.

### **Mattia Cordioli**

Role: European Mobility manager & Trainer. He is experienced in covering different areas of project management and implementation. Mattia has been actively involved in all activities concerned sectors of KA1 and KA2. He is NFE. Trainer for Youth, Adults and Education Through Sports methodologies. His focus is on cultural, social, and human rights issues and he is was coordinating MVI Social Campaign during the past years. Thanks to his working experiences in social organizations, Mattia own a complete and flexible background.

## Previous sport projects

Reference number	579807-EPP-1-2016-1-DK-SPO-SSCP
Title of the project	<b>Young Ambassadors for Sport and Volunteering</b>
Project duration (from/to)	01/01/2017-31/12/2018
Role of organisation	Coordinator
Website	<a href="https://minevaganti.org/">https://minevaganti.org/</a> <a href="http://www.mvngosportbranch.com/">http://www.mvngosportbranch.com/</a>
Please provide a short summary of the project outcomes and how the new proposals seek to build on them	<p>The projects aims to promote voluntary activities in sport, together with social inclusion, equal opportunities and awareness of the importance of health-enhancing physical activity through increased participation in, and equal access to, sport for all.</p> <p>Project rationale is grounded on partners' assessment that the involvement of volunteers in sports is a key factor to the success and long term sustainability of sport clubs, organisations and events. Sport organisations and clubs all over Europe play a crucial role in encouraging and engaging people to get physically active. Unfortunately, the level of civic involvement in voluntary activities related to sport is warning. A EU Barometer</p>

survey indicates that generally only 7 % of the EU citizens engage in volunteering activities in sport.

The Consortium of Partners of the project is composed of 4 organisations from Italy (Coordinator), Bulgaria, Poland and Denmark.

Through the project, partners aim at achieving the below outlined results:

- Creating a team of 20 Volunteer Sport Ambassadors, which will operate at the local level, with the support of partners organisations
- Training Volunteer Sport Ambassadors to raise awareness of healthy lifestyle, promote sport culture and voluntary activities in sport, as well as try to increase participation in volunteering and equal access to sport for all.
- Deploying, through the Volunteer Sport Ambassadors, various activities in view of awareness of the importance of health-enhancing physical activity through increased participation in, and equal access to, sport for all.

Young Ambassadors for Sport and Volunteering (YASV) will deliver on the following activities:

- KICK OFF international meeting – will be held in February 2017 in Sardinia (Italy)
- Work on local level in each partner country: Building teams of young volunteers and sport ambassadors from each organisation (March /April 2017)
- Local regular Visibility actions (March 2017 – Dec 2018) will be done by all partners in a way to promote the project among various target groups and stakeholders
- International training of the young volunteer and sport ambassadors - May 2017, Sofia, Bulgaria
- Local actions on promotion of sport culture and physical activeness – will be held in the period from May to November 2017 in each partner country
- Mid term project evaluation meeting – 3 days, held in November 2017 in Sardinia

	<ul style="list-style-type: none"> <li>- Work on local level: Teams of ambassadors initiate local actions on volunteering in sports –December 2017 – October 2018.</li> <li>- Dissemination phase – December 2017 / December 2018</li> <li>- Final Evaluation Meeting – December 2018, to be held in Kielce, Poland</li> </ul>
Reference number	572647-EPP-1-2016-1-BG-SPO-SCP
Title of the project	<b>European Everyday of Sport</b>
Project duration (from/to)	01/05/2018 -31/10/2017
Role of organisation	Partner
Website	<a href="http://www.eusport.org/">http://www.eusport.org/</a>
Please provide a short summary of the project outcomes and how the new proposals seek to build on them	<p>“European Everyday of Sport” is designed to improve sharing of good practices, priority of Erasmus+ programme, to find and promote good practices from first and second edition of European Week of Sport and to encourage participation in sport and physical activity. The most specific topic this strategic partnership will be focused is the development, identification, promotion and sharing of good practices.</p> <p>Despite the growing importance attached to the promotion of physical activity in EU Member States, the previous “Eurobarometer” survey in 2009 identified “alarmingly high” rates of physical inactivity in the EU, and found that the vast majority of Europeans (60%) never exercise or play sport. The last published “Eurobarometer” survey in 2014 stated very similar data, as in 41% of Europeans exercise or play sport at least once a week, while 59% of EU citizens never or seldom do so.</p> <p>Based on the gap, it is more than visible that the importance of highlighting and promoting sport and physical activity is a priority of all European organisations, working on local, national or European level. This is why the project aims to find the way of analyzing, collecting and promoting the good practices in the different target groups – kids, youth, in school, working people, active aging people, in the city, in small village.</p>

	<p>European Everyday of Sportwill implement various activities on local, national and international level; will focus in collecting, development, identification, analyzing, promotion and sharing good practices from Europe and the World that can be easily implemented in the work of the experts in the mentioned fields. Project will focus also in the activities, held by the first and second edition of “European week of sport” and will collect all the good practices, realized in 2015 and 2016 in the Member countries. These tools will be very useful in the planning of next editions of the EWoS and other events to promote health-enhancing physical activity through increased participation in, and equal access to, sport for all.</p> <p>All activities we will held by this project will be devoted in supplying the need of open recourses with detailed focus on specific target groups and opportunities to make the movement part of the daily schedule of more and more people in Europe. As we have mentioned afore, the tools and instruments to make Europe a moving nation are still not the most effective and we are observing the results in the data from both “Eurobarometer” 2009 and 2014. This is the obvious need this consortium will try to deal with and create a short cut between the target groups (direct – sport, health and youth specialists, educational institutions, local authorities, NGO’s, national authorities and indirect – kids, youth, working people, active aging people, people living in cities and small villages) and physical activity as a “positive medicine” for personal, professional and social development of individuals.</p>
Reference number	590868-EPP-1-2017-1-HR-SPO-SCP
Title of the project	<b>Project for Academy of Sport SupPORT (PASSPORT)</b>
Project duration (from/to)	01/01/2018-30/06/2020
Role of organisation	Partner
Website	<a href="https://passport-eu.info/en/">https://passport-eu.info/en/</a>
Please provide a short summary of the project outcomes and how the new proposals seek to build on them	<p>The main objective of the PASSPORT (Project for Academy Sport SupPORT) project is raising the awareness of dual carrier for athletes. Athletes often face challenges to combine their sporting career with education. According to international research, one-third of all participants from sports each year as they consider that sport takes up too much of their time.</p> <p>PASSPORT promote and support dual careers for athletes by setting up a transnational network of partners that will develop a platform for the training of athletes in the sport</p>

management hence contributing to their employability.

To ensure a real European dimension ,PASSPORT has agreed a strategic partnership with three sport association, two academic institutions and one NGO trying to compare experience from East and West part of Europe.

By identifying and exchanging the best practices in developing the curriculum of training in sport management consider with athletes needs, the project PASSPORT will also address one of the priority themes identified by the European Union Work Plan for Sport (2014-2017): the economic dimension of sport, in particular benefits of sport management and innovation; and the employment in sport as well as education and training in sport.
